

REGISTRATION FEE (per delegate)

PG Students/UG Students : Rs. 150/-
Research Scholars/Faculty : Rs. 250/-

Registration fee is to be paid by Demand Draft in favor of “**Jansons Institute of Technology**” payable at Coimbatore.

IMPORTANT DATES

Last date for receipt of application :15.07.2017

Selection intimation by email :17.07.2017

Confirmation by the participants :19.07.2017

TOPICS TO BE COVERED

- ✓ Emergence of Cloud Virtualization
- ✓ Early Cloud setup & its limitation
- ✓ Enhancements & Improvements in Cloud
- ✓ Information Security in Cloud
- ✓ Challenges and Network Security Issues in Cloud Computing
- ✓ The future outlook for Cloud Computing

Sessions will be handled by experts from Industries.

OVERVIEW OF CLOUD COMPUTING

Cloud computing is on the raise and it plays a vital role in the field of education, research and IT sector. It is the distribution of computing services like servers, storage, databases, networking, software, analytics and more – over the Internet. Cloud providers are companies that offer cloud services and they charge for using the cloud computing services. Resource Sharing is the main fruition of Cloud. These resources can be utilized in just a plug and play method. This sharing provides cost effectiveness and ease of use.

Cloud computing is becoming an adoptable technology in the field of education with its active scalability and usage of virtualized resources as a service through the Internet. Corporates and others have the provision to access the various application platforms and resources in a quick and cost effective way through cloud. Teaching Learning process can be made effective through Cloud computing. The cloud guarantees that students, instructors, personnel, guardians, and staff have access to basic data utilizing any gadget from anywhere.

One Day National Seminar on

The New Ages & Emerging Technologies of Cloud Computing

26th July 2017

CONVENER

Ms.A.Rathika
AP & Head / CSE

ORGANIZING SECRETARY

Dr.U.Vijay Shankar, ASP/CSE

CO-ORDINATOR

Mr.J.Sikkandhar Batcha, AP/CSE

Organized by
**DEPARTMENT OF COMPUTER SCIENCE
& ENGINEERING**

Jansons Institute of Technology

Approved by AICTE & Affiliated to
Anna University, Chennai. An ISO
9001:2015 Certified Institution
Karumathampatti, Coimbatore – 641 659

Ph: 0421-2264900, 0421-2264999

E-mail: info@jit.ac.in

ABOUT THE INSTITUTION

Jansons Foundation crossed another milestone by establishing Jansons Institute of Technology in 2009. The locational advantage of the institution is its close proximity to Coimbatore. The institution is approved by the All India Council for Technical Education (AICTE), New Delhi and is affiliated to Anna University, Chennai. The institution is well equipped with advanced infra-structural facilities to meet the requirements as university prescribes. The institution aims to develop and implement a comprehensive human resources plan to include recruitment, professional development, retention and succession that attract qualified staff and faculty members and ensure that they remain updated in their respective roles and disciplines.

ABOUT THE DEPARTMENT

The Department of Computer Science and Engineering of Jansons Institute of Technology was formed in 2009. The Department offers B.E and M.E in Computer Science and Engineering. At present the yearly intake is 120 students for B.E Computer Science and Engineering and 24 students for M.E Computer Science and Engineering. The Department has a comprehensive curriculum on topics related to all aspects of Computer Hardware and Software with an emphasis on practical learning. The course is affiliated with Anna University, Chennai. And it is up-to-date and includes courses on embryonic topics to equip the Students with the latest developments. The Department provides an outstanding education and research environment complemented by excellence in teaching. The Department has state of the art infrastructure and computing equipment supported by high speed Ethernet and Internet facilities. Various student organizations like CSI Chapter and C Forum are active throughout the year.

LOCATION

The Institute is located on Coimbatore - Avinashi National Highway (NH 544) and is about 20 Kms from Coimbatore. It is accessible by all the buses plying from Coimbatore to Tiruppur, Erode.

ABOUT THE SEMINAR

Cloud computing is the bleeding-edge technology of today's IT industry. It seems the ranks of Virtualization, Grid computing and clustering, with other technologies to give a blend of all evolving techniques. Depending on one's own view, the definition of Cloud computing can vary. Contingent to one's own perspective, Cloud computing can have different views – either a business point of view or an application point of view. This has created a misperception on the definition and a fuzzy view as to what cloud computing is or even does. Leveraging third-party computing capability over the network is a good way to cut costs, increase scale, and improve agility. The concept of Cloud computing involves a data center approach in the world of IT, or even multiple data centers scattered around the world. Forging new standards will only boost the potential and make the technology even more promising. This is a paradigm shift from the historical client-server architecture where the network users owned, maintained & operated their own network infrastructure and applications. In this regard, the students need awareness of this field to access data from anywhere and to store information in the Cloud.
