Event Objective

The program aims to awaken the smokers in order to keep them nicotine-free and to help them lead a healthy life. The general objective of the program is to generate awareness of and promote the early prevention of respiratory and other related diseases.

Event Summary

The YRC team from Jansons Institute of Technology organized an awareness program named as "NO SMOKING NO CANCER" in the Chennappa chetti Pudur Village on 11.09.2021. The team consist of 8 students and they started from PUPS school, and covered north side, west side, south and east side of chennappachettipudur. The YRC team shared the effects of smoking to the 140 people in the village individually. There are many men and their families who are affected due to drugs and steroids. Most of the men are affected due to smoking. As this is the serious situation of our society, The volunteers went to each and every person in that village and created awareness about the disease that will be caused due to smoking. Few peoples didn't even know about the risk of smoking. So, the volunteers team explained the prevention of disease caused by smoking and said to avoid smoking.

Event Outcomes

Due to this No Smoking awareness programme, the village people gained knowledge of the effects of smoking and how it will kill human life. Also, the student volunteers experienced a lot while approaching the different types of people in that village.
