Coronavirus disease-2019 (COVID-19) was declared a "pandemic" by the World Health Organization (WHO) in early March 2020. Globally, extraordinary measures are being adopted to combat the formidable spread of the on-going outbreak. Under such conditions, people's adherence to preventive measures is greatly affected by their awareness of the disease. Vaccination plays a vital role in controlling the spreading of viruses from one to another. Also our government takes so many steps to create awareness about the importance of vaccination.

In this regard, JIT volunteers created awareness about the COVID-19 vaccines Covidshield and Covaxin, its importance and necessity in this situation. We cleared the doubts and fear of village people
