Event brief (500 words with photo):

Department of Artificial intelligence and Data Science inaugurated ‘Data Analytics Club’ on 2nd March 2021. The club aims to enhance statistical understanding of data and also to develop real world automated solution for various projects in Data Analytics. The event began with the welcome address by the club Secretary Mr. Mudumba saibalaji sashank. Followed by, Ms.Vasundara.M, joint-secretary has introduced the coordinators of the club.

The session started with the josh to learn new technology and importance of data analytics, which was handled by the club coordinator Ms.Jandyam venkata varshitha rao.She also explained about the basic concepts like Introduction to Data Analytics, Predictive analysis, descriptive analysis and diagnostic analysis. Added to the crown Ms. Bandaru niharika, member of the club depicted the importance of Data Analytics in real world application. The club members actively participated in the programme and understood the importance of the club.

Finally the event ended with the vote of thanks by Mr.Sasikumar.T. The session facilitated a way for technical discussion and exchange of ideas. The club aids in fine tuning the students technical skills that paves a way for their career growth.
