Event Objective

To encourage the students to share their thoughts on the subject of Emerging Ideas of AI in Social Issues in order to help them develop their analytical thinking and teamwork skills.
To enable students to build an automated model for social issues using data analytics.
To provide the students with knowledge of the most recent developments and uses of analytics in numerous disciplines, as well as to arm them with analytical skills to increase their effectiveness.
To educate students on the most up-to-date strategies using to solve a variety of social problems using machine learning.
To overcome students stage fear and improve communication skills of a students.

Event Summary

Data Analytics Club hosted an Idea Manifest on "Emerging Ideas of AI over Social Issues" for students pursuing B.Tech Artificial Intelligence and Data Science on September 07, 2022, from 2.30 to 4.15 p.m. in Computer centre 2. The welcome speech kicked off the programme then comes with Idea Discussion Forum "Emerging Ideas of AI over Social Issues". In that everyone expressed n number of ideas/solutions for a problem statement. The event was chaired by Mr.M.Vivek, AP/AI and Ms.S.Jansirani, AP/AI who showed a lot of interest and appreciation for all the ideas presented and also encouraged the students spirit of innovation and harness the enormous potential to think big and dream of futuristic ideas.
AI over Social issues were discussed in an open forum where anyone can offer a suggestion as well as new idea and one idea was ultimately chosen based on uniqueness and novelty.
In this data analytics club event, students had improved their Analytical skills and Intellectual thinking as well as their presentation skill and also students had grasped knowledge and learnt more about,

- The difference between idea and novelty
- How to distribute content effectively.
- Emerging AI Fields versus Social Issues

Event Outcomes

Students gained more knowledge regarding problem identification and idea generation.
Students can develop automated solutions utilising Data Analytics Prediction techniques by recognising real-world problems.
Student's analytical and critical thinking skill is improved by sharing of knowledge and collective understanding of the latest technology.
Students are well-versed in a range of social concerns by discussing more problem statement and have a better understanding of how AI can be used to choose one particular solution from a variety of options.

Event Feedback

How would you rate the event in terms of preparation, flow, and content?	The content and activities of the event has increased my knowledge.	How would you rate the speaker in terms of knowledge and presentation?	Overall experience of the event.	Suggestion for Improvements (If any)
