

Jansons Institute of Technology

Karumathampatti, Coimbatore – 641 659

Report

Name of the Program / Activity / Event / Others	Timelapse Photography Contest
Date & No. of days	20.08.2021, 1 day
Organized by	MOPHO Club
In association with	-
Venue	Online Contest
Participants/ Beneficiaries	JIT Students

Event brief (500 words with photo):

Time-lapse photography is a cinematography technique in which a photographer will take a series of still images of the same frame at regular intervals over a period of time, then play through the entire sequence rapidly. For example, individual shots taken of a flower growing over time become a video showing how it goes from seedling to fully blossomed blooming. The purpose of time-lapse photography is to create the illusion of high-speed movement—manipulating time to make it seem as if the subject is moving rapidly. Time-lapse photography is most commonly used to capture slow processes that normally wouldn't be very visible or interesting if being watched with just the human eye (e.g., sunrise and sunset, the movement of the stars during the night, or the growth of plants). However, time-lapses can also be used to capture fast movements and make them seem even faster (e.g., a waterfall, a crowded city sidewalk, or a busy highway). Our aim is to discover photographers in the particular theme.

E Certificates Provided to all participants

Total Participants : 10

Winners : 3

Position	Name	Department	Year
1 st Prize	Ms Uma Maheswari Yavvari	Civil	Second Year
2 nd Prize	Ms. KAKULURU KAVYA DARSHINI	Civil	Second Year
3 rd Prize	Mr. Nithinjoy	Mech	Second Year

Jansons Institute of Technology

Karumathampatti, Coimbatore – 641 659

1st Prize – Ms Uma Maheswari Yavvari – II Year Civil

2nd Prize – KAKULURU KAVYA DARSHINI – II Year Civil

Jansons Institute of Technology

Karumathampatti, Coimbatore – 641 659

3rd Prize – Mr. Nithinjoy – II Year Mech

Outcomes	Created awareness among the maximum participants.
Feedback	Received good feedback through mail from many participants.
Suggestions / Future actions	Suggested to conduct more events in future to create awareness.
