## Event Objective

The objective of the seminar is to motivate the young minds towards an Innovative Product Development in Smart Automation, thereby transforming innovative ideas into reality.

## Event Summary

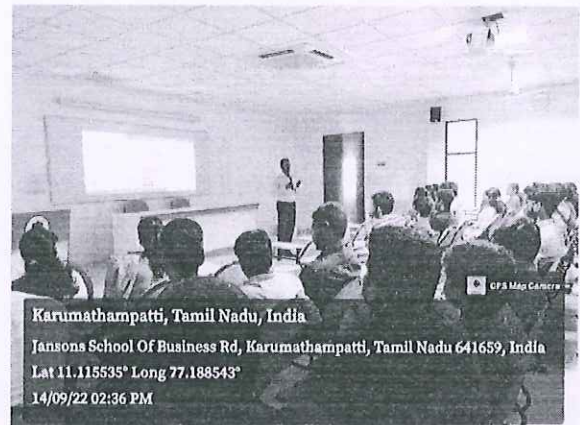

A Seminar on "Innovative Product Development in Smart Automation" organized on 14.09.2022 by the Industrial IoT club in association with JIT-IIC at Jansons Institute of Technology, Coimbatore. Mr. Karthic Subramaniam, Business Head, SAN Innovations Lab, Erode, Tamilnadu, clearly stated the primary benefit of innovative product development in accelerating the process by which an innovative idea transitions to effective design and development of a marketable innovative product. The program was an initiative towards imparting knowledge to the faculties and students about the significance of Innovative product development to improve the existing product line which changes over time to meet the needs of its customers. He briefly explained about the adoption of the innovative product development methodology which can improve long term product development efforts because overall

costs can be reduced while time to market is shortened as well. He discussed some of the innovative product ideas with the students to explore it. Students and Faculty members took part in the event which was enriching and highly insightful. The session ended with the interaction of the students and faculties with the resource person.
