### Event Objective

To prepare the students for National level Hackathon Events and develop their Logical and Coding Skills

### Event Summary

The event started with a welcome address by the student coordinator. The session starts by giving instruction about the hackathon. The students were provided with 5 questions where 3 questions are given related to the coding knowledge and 2 related to debugging. 60 students who have passed the prelims where selected irrespective of their department and year are grouped as team of 3 members. The students actively participated and tried their level best to crack the questions. At the end of the event, we came up with three winners,

#### I PLACE:
