### Event brief (500 words with photo):

Energy is a key element for development, as it allows the progress of companies, the generation of jobs and the flow of investments; however, it is one of the most polluting industries. Energy saving, in this sense, represents a benefit for the environment, as well as for the preservation of non-renewable resources. Saving energy reduces air and water pollution and conserves natural resources, which in turn creates a healthier living environment for people everywhere. At the same time, efficiency also saves money and creates jobs. Energy saving benefits both the domestic economy and the national economy, especially in countries that are highly dependent on foreign oil. Thus, by reducing consumption, it helps to mitigate such energy dependence.

Role of students is crucial in energy conservation as they are the future builders of the society. Energy conservation education is the inevitable requirement of sustainable development strategy. Energy conservation depends on the joint efforts of the whole society. It is necessary to carry out extensive and lasting promotion and education of energy conservation among student community. For promoting energy saving JIT sustainability cell organizes a poster making competition on "Save Energy Save Earth".

### Event details:

- Students designed posters on the theme using online tools.
- The posters were submitted through the google form.
- 17 Participants created posters on the theme creatively.

## Student name

Gunasekhar C – III CSE  
Masthanvali S K – II Mechanical  
Koncha Veenila Reddy – II CSE  
Yavvari Uma Maheshwari – I Civil  
Sachin – II Mechanical

Total Participants : 17

<b>Outcomes</b>	Students engage creatively in this poster activity by looking at how energy-saving works and how it benefits the environment. Students design a poster to encourage others to use energy-saving practices.
<b>Feedback</b>	Students understood their role in conserving the energy resources.
<b>Suggestions / Future actions</b>	More competitions to be organized in future.
