Reg. No.

Question Paper Code : 51857

B.E./B.Tech. DEGREE EXAMINATION, MAY/JUNE 2016

Fifth Semester

Mechanical Engineering

ME 2304/ME 54/ME 1304/080120044/10122 ME 505 – ENGINEERING METROLOGY AND MEASUREMENTS

(Common to Production Engineering)

(Regulations 2008/2010)

(Common to PTME 2304/10122 ME 505 – Engineering Metrology and Measurements for B.E. (Part-Time) Fourth Semester Mechanical Engineering – Regulations 2009/2010)

Time : Three Hours

111111

Maximum : 100 Marks

Answer ALL questions. PART – A $(10 \times 2 = 20 \text{ Marks})$

- 1. What is Primary Measurement ? Give an Example.
- 2. What are Seismic Instruments?
- 3. Why Laser is preferred in Engineering Metrology?
- 4. A 100 mm sine bar was used to measure the taper angle of the specimen and the gauge block was 5.055mm. What is the taper angle.
- 5. What is the chordal tooth thickness at the pitch line of gear of number of teeth 50 and module 4 mm ?

- 6. Define Out off Roundness.
- 7. What is crust and Trough ?
- 8. Define Grey Scale Analysis.
- 9. Give the basic principle of strain Gauge Load cell.
- 10. What is an anemometer?

$PART - B (5 \times 16 = 80 Marks)$

11.	(a)	'(i)	Describe	the	various	elements	and	its	function	of	a	generalized	
			Measurem	ent S	System,	i mitonio							(12)

Mechanical Engineering

(ii) Give the difference between accuracy and precision with an example.

OR

(b)	(i)	Give an example of Zero order system.	(4)

- (ii) Give one example for the first order system having electrical components.
 (4)
- (iii) What is meant by Interchangeable Manufacturing ? What are its advantages ?
- 12. (a) (i) With a neat diagram explain the Construction and working principle of Depth Micrometer. (10)
 - (ii) Explain mathematically why error in sine bar increases when the angle being measured exceeds 45°.
 (6)

OR

(b) (i) Explain with the help of neat sketches, the construction and working of an Autocollimeter.

(8)

(4)

2

-	The second	(ii)	With a neat sketch explain the construction and working Principle of	of			
			Differential Pneumatic Comparator.	(8)			
13.	(a)	(i)	Describe the method of measuring the pitch of the Screw thread using the	e			
			Tool Makers Microscope ? Discuss in detail.	(10)			
		(ii)	Explain kinematic accuracy in Gear Rotation.	(6)			
			OR				
	(b)	(i)	Explain the working Principle of Tomlinson surfacemeter with a new	at			
			sketch.	(8)			
		(i)	Define Straightness. Describe the method of measuring the straightness of	of			
	-		a surface using Autocollimeter.	(8)			
			Control Engineerings				
14.	(a)	Explain the working principle of AC Laser Interferometer with a neat sketch. (1					
		10 S	OR				
	(b)	(i)	Explain the procedure to be used in measurement of various dimensions of	of			
			a typical component using a cantilever type CMM.	(12)			
		(ii)	What are the important features available in CMM software?	(4)			
15.	(a)	(i)	Describe the construction of a hydraulic Dynamometer and explain how	it			
			is used for Power Measurement.	(12)			
		(ii)	Briefly explain a Torque meter.	(4)			
			OR				
	(b)	Writ	e short Notes on				
		(i)	Thermocouple	(8)			
		(ii)	Optical Pyrometer.	(8)			
			a con the adde managed of bill are transformation ?
