

Report

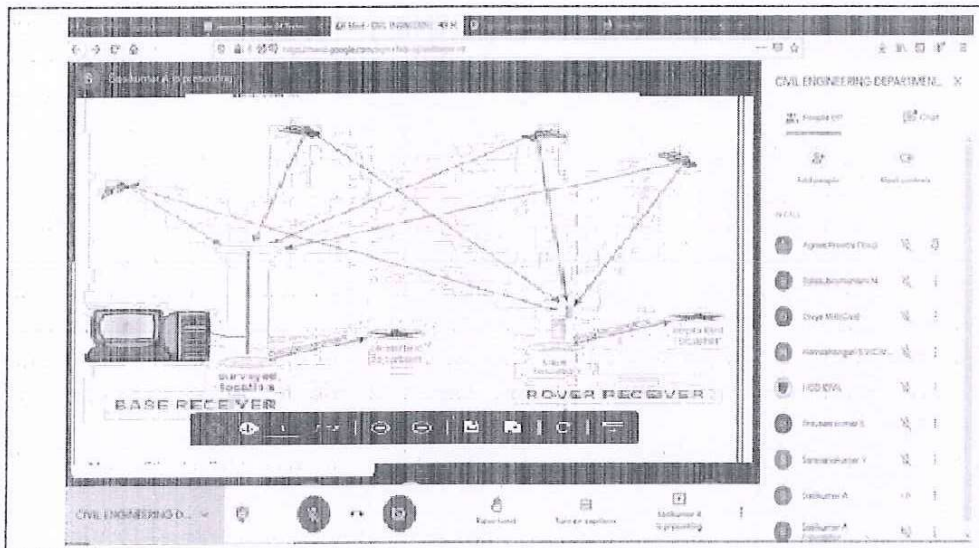

Name of the Program / Activity / Event / Others	Webinar on “Entrepreneurship Opportunities in the Differential Global Positioning System Surveying”
Date & No. of days	24.04.2021 & 1
Organized by	Jansons Institute of Technology
In association with	
Venue	BBB
Participants/ Beneficiaries	Civil Engineering Students

Event brief (500 words with photo):

The Department of Civil Engineering organized a webinar on “Entrepreneurship Opportunities in the Differential Global Positioning System Surveying” by Mr.A.Sasikumar, Assistant Professor, Civil Department, Jansons Institute of Technology on 24.04.2021, 3:00pm

The benefits of GPS is especially useful in surveying coasts and waterways, where there are few land-based reference points. Survey vessels combine GPS positions with sonar depth soundings to make the nautical charts that alert mariners to changing water depths and underwater hazards. Various companies offering GPS surveying jobs were also discussed. The students were encouraged to learn the advancements in the field and to choose the career wisely

The students clarified their doubts regarding the patents. The total number of students participated are 34.

Outcomes	Students were enlightened about the opportunities in the filed of GPS surveying
Feedback	Students found it to be useful in enriching their knowledge
Suggestions / Future actions	Such programs can be conducted periodically
