Organized by	Department of Computer Science and Engineering
In association with	-
Venue	Big blue button (Moodle - Virtual Platform)
Participants/ Beneficiaries	Students of Computer Science Engineering

Event brief (500 words with photo):

The Visual Presentation Contest is initiated with the inspiration of science fiction ideas which are to be developed and exhibited in the form of video/simulation/animated video.

II, III and IV Year Students of Computer Science and Engineering were participated and delivered their ideas clearly through self-made video in the Moodle platform.

It was intradepartmental event. Totally 17 teams enrolled for the contest and finally 12 teams participated in the live event streamed on 12.10.2020 at 10.00am.

Participants came out with advanced and futuristic ideas that competes with the rapid pace of technological evolution such as Artificial Intelligence, Robotics in ecosystem, Machine Learning, IoT, Neural Networks, Healthcare & so on.

The session was mind-blowing and also portrayed the creativity of the students in a fascinating way.

Dare to Dream

As we are the creators of revolutions in technology, this visual presentation contest will portray the dreams of some life-changing & mind-blowing technologies which we can expect to see by 2070.

All the students of II year, III year and IV year can participate in the event for enriching their knowledge and expanding your technological imagination. This event will surely kindle your thought process about the future technologies.

You are all invited to conquer the Technology

Outcomes	Students will be able to kindle their innovation and creativity in the stream of technology.
Feedback	Excellent
Suggestions / Future actions	More number of events can be planned.
