Event brief (500 words with photo):

Department of Computer Science and Engineering Organized a Webinar entitled “**Recent Trends in Intelligent App Development**”. The session was taken forward through online on 17th April 2021. Mr.Sarath Krishnaswamy, Team Lead, Castle Labs, Coimbatore was the Resource Person for the Session. He interacted and shared his knowledge on App User Interface and User Experience layout among the participants.

The students were clarified about,

- ✓ App concepts
- ✓ Block chain, IOT SAP (Systems Applications and Products in Data Processing)
- ✓ Drive continuous innovation
- ✓ To Identify and focus on top quality customer outcomes & superior strategic technology advisory
- ✓ Finding correct and up-to-date information about all of Apples devices

How do you see a platform like FLUTTER evolving over the years. Is it worth focusing on now? Do you see a growth in a not native/ cross platforms such as this compared to native platforms. If yea how to we go about gaining knowledge on the subject?

St Stephen 11:36 AM
How to create app like Amazon.i mean what are all the software used. Both front end and backend . Firebase is best or parse . Then which server application, database sql and twillio is best for bulk message service?. Then sms retrivel api ..
