Event brief (500 words with photo):	
<p>The IPR cell in association with Department of ECE of Jansons Institute of Technology organized a Seminar on “Awareness on IPR and Design Patents” for final ECE students on 07.03.2019. The seminar was handled by Dr.P.Gowtham, Associate Professor, Department of ECE, EDC cell coordinator, Jansons Institute of Technology, Coimbatore.</p> <p>The students were educated about IPR, its components and how the innovations are protected by means of IPR. He also explained about how the patents could be framed and filed with his own patent drafting. He also emphasized about the importance of design patents and what are the aspects looked in for creation of a patent. He also explained about how the patents could be used to become a start up and earn money from it. The career oppotunites was also explained to the students.</p>	
Outcomes	The students learnt about IPR and its importance for an innovation. The patent filing process was also learnt by the students.
